To whom it may concern,

It was recently brought to my attention that election signs were placed on a parcel of San Simon Unified School District Property in Portal, Arizona. While the District is not responsible for placing the signs there, we fully support their removal as the presence of campaign signage on school district property is in violation of Arizona law (A.R.S. 15-511). District staff is working to ensure the prompt removal of all election-related materials and signage present on District property, for their relocation to authorized public property.
